PAC RAT ULT-TRA MODULAR COMPONENTS

Fully customizable to your applications!

Universal Gates

The reinforced aluminum tailgate, the bulkhead, and both side gates are operational, ambidextrous and easily removable.

L-Track

L-Track is engineered into the aluminum extrusions, and incorporated throughout manufacturing. These L-Tracks accommodate *Commercial Off-The-Shelf* L-Track fittings, which allow the Pac Rat to provide, in excess of, 200 tie-down points. Specially designed L-Track fittings are available for attachment of modular components and accessories (i.e., fuel can mounts, spare tire mounts, and Pioneer tool kits).

2" Receiver

The L-Track extrusion tubes will accommodate a standard 2" hitch (or other modular components) in five locations on the 1.5 Meter Pac Rat and nine locations on the 2 Meter Pac Rat. The 2" receiver will also accommodate COTS items such as:

- Ball Hitch
- Pintle Hitch
- Luggage Basket
- Bicycle Rack

The 2" Receivers will also accommodate custom designed accessories such as:

- Casualty Evac System
- Weapons Mounts
- Mechanics Vise
- Winch (2000lb)
- Pontoons (2200lb Capacity)
- Trolling Motor (12V Tiller)
- Passenger Jump Seats
- Kayak/Ladder Rack

PAC RAT ULT-TRA MODULAR COMPONENTS

Tires & Wheels

The 156 x 4 x 12mm bolt hole pattern on the Pac Rat allow the tires and wheels to become spares for the Polaris M-Razor™. This bolt hole pattern will accommodate a host of UTV tire and wheel combinations.

Off-Set Trailer Tongue

The Off-Set Trailer Tongue is invertible, to either a high or low position, to tow behind a Polaris M-Razor™ or HMMWV™. The tongue is removable, as well as telescopic. L-Track has been incorporated along the trailer tongue to allow for component and accessory attachments.

Optional Accessories:

- Casualty Evac System
- Weapon Mount
- Winch (2000lbs)
- Pumps (12v/200lb Capacity)
- Trolling Motor (12v Tiller)
- Passenger Jump Seats
- Kayak/Ladder Rack

By simply removing the front pin of the tongue, the bed can be manually tipped to a 52° dump angle.

The Off-Set Trailer Tongue accommodates:

- 2" ball coupler
- Standard pintle eye
- 360° swivel pintle eye

PAC RAT ULT-TRA SPECS

	1.5 Meter	2 Meter
Overall Length	107"	123"

PAC RAT ULT-TRA ADVANTAGES

- All Certified Welded
- All 6061 Military Grade Aluminum
- CNC Machine tolerance components to provide simple, quiet, ultra-rugged performance
- High Capacity, High Speed, High Versatility - Low Weight
- Track width compatible with the Polaris M-Razor™
- 59-1/2" width to accommodate air craft deployment
- Integrated 2" receivers, multiple locations
- Integrated L-Track throughout
- Dump Angle 52°
- Fork Truck friendly
- Independent Torsion Suspension
- Military Grade Paint (Chemical Agent Resistance Coating)
- Waterproof, LED DOT Lighting
- Designed to accommodate ISO Containers
